Honeywell RMU Program | Midas to Midas S2

Regions Affected: **Global**

Dear Customers and Colleagues,

Honeywell values your loyalty and appreciates your business. We also have been hard at work to develop the latest technology in gas measurement and detection. Harmonizing these to maximize your safety, we are excited to announce our Retrofit, Migration, and Upgrade (RMU) program to streamline the process of updating your legacy system with the most current technology.

Customers may take advantage of two potential RMU programs. First, get peace of mind with additional warranties which are available on new devices that replace legacy systems. Second, realize automated sensor or chemcassette order and shipment via our Sensor as a Service (SENaaS) program where sensors and chemcassettes are shipped in time to replace the end of service life component. The SENaaS program is designed to cover supply for a two-year period based on the published service life of your component.

Honeywell is pleased to announce the Midas S2 gas detector with superior user experience, better serviceability, and an overall improvement in customer lifetime value. The Midas S2's larger graphics display enables better status visibility and allows the user to fully appreciate the more intuitive user interface. Easy access and modular sensor and pump assemblies allow for faster service turnaround time. In addition, the Power over Ethernet (PoE) protocol and small footprint allow for greater flexibility and speed during installation. These features and more make the Midas S2 a natural progression from the legacy Midas device and Honeywell would like to offer the below incentive discounts for customers upgrading from the Midas to the Midas S2 device.

Material	Description	Notes	Basic	Premium
MIDAS-T-NP1-RMUB	MIDAS-T-NP1 Extended Warranty 1yr	Midas S2 Warranty Extension by 1 year	X	
MIDS2E-COH-RMUP	MIDS2E-COH SENaaS 1x	Sensor as a Service with 1 COH sensor over 2 years		X
MIDS2E-COX-RMUP	MIDS2E-COX SENaaS 1x	Sensor as a Service with 1 COX sensor over 2 years		X
MIDS2E-H2S-RMUP	MIDS2E-H2S SENaaS 1x	Sensor as a Service with 1 H2S sensor over 2 years		X
MIDS2E-H2X-RMUP	MIDS2E-H2X SENaaS 1x	Sensor as a Service with 1 H2X sensor over 2 years		X
MIDS2E-HAL-RMUP	MIDS2E-HAL SENaaS 1x	Sensor as a Service with 1 HAL sensor over 2 years		X
MIDS2E-HCL-RMUP	MIDS2E-HCL SENaaS 1x	Sensor as a Service with 1 HCL sensor over 2 years		X
MIDS2E-HFX-RMUP	MIDS2E-HFX SENaaS 1x	Sensor as a Service with 1 HFX sensor over 2 years		X
MIDS2E-LEL-RMUP	MIDS2E-LEL SENaaS 1x	Sensor as a Service with 1 LEL sensor over 2 years		X
MIDS2E-NH3-RMUP	MIDS2E-NH3 SENaaS 1x	Sensor as a Service with 1 NH3 sensor over 2 years		X
MIDS2E-O3X-RMUP	MIDS2E-O3X SENaaS 1x	Sensor as a Service with 1 O3X sensor over 2 years		X
MIDS2E-SHX-RMUP	MIDS2E-SHX SENaaS 1x	Sensor as a Service with 1 SHX sensor over 2 years		X
MIDS2E-SO2-RMUP	MIDS2E-SO2 SENaaS 1x	Sensor as a Service with 1 SO2 sensor over 2 years		X
MIDS2E-XHF-RMUP	MIDS2E-XHF SENaaS 1x	Sensor as a Service with 1 XHF sensor over 2 years		X
MIDS2E-COS-RMUP	MIDS2E-COS SENaaS 1x	Sensor as a Service with 1 COS sensor over 2 years		X

Please contact your local Honeywell Sales Team for pricing and availability.

Terms and Conditions

Sensor as a Service (SENaaS) aims to provide consumable sensors or chemcassettes sufficient to cover the defined period based on the consumable's normal life expectancy. The actual number of sensors and chemcassettes are not to exceed the value defined in the description "N" where Nx is the total number of consumables that will be provided. Replacement consumables will be shipped four weeks in advance of the installed consumable's estimated end of service life. This program does not include shipping, installation, startup, or calibration. A quote for the labor to install, startup, and calibrate the consumable is available upon request.

Terms and Conditions for the extended warranties are as defined in the original equipment sale where the only difference is one additional year of similar coverage.

Only one extended warranty year is available per device as part of this program. Quotes for multiple-year extended warranties are available upon request.

All sales of goods or services referenced this offer are conditioned upon the terms and conditions set forth in the Honeywell Sensing Solutions (HSS) Terms and Conditions of Sale for the relevant region, found at <https://www.honeywellsafety.com/legaldocuments-global/>.
