

HONEYWELL **SMART TALK**

An All-in-One Communications Solution
for Today's Mobile Workers

Honeywell

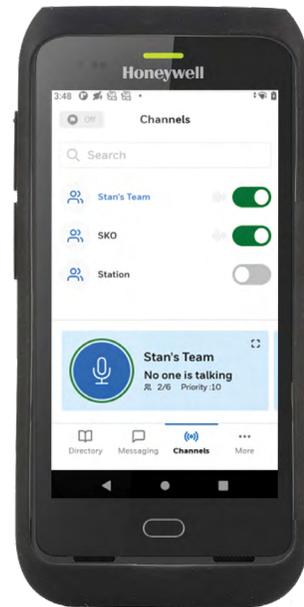

SECURE UNIFIED COMMUNICATIONS SOFTWARE FOR MOBILE WORKERS

Highly mobile and deskless workers often rely on a mix of communication methods to stay in touch and perform collaborative tasks. Training and support is patchy and security an afterthought, making administration an endless headache for IT.

Honeywell Smart Talk is an integrated workforce communications solution designed to address the challenges of fragmented communication within organizations. It provides enterprise-grade security for push-to-talk, voice calls, text, and media messaging, all accessible from a single device.

Smart Talk enables employees to make and receive high-quality voice over IP (VoIP) calls over either Wi-Fi or cellular data networks, ensuring call quality whether interacting with customers or colleagues.

This solution is ideal for businesses of all sizes navigating the increasing demands of a mobile workforce.

FEATURES AND BENEFITS
